

3) Workshop EIDD network

Three groups – cafe:

1) EIDD–network map: Who belongs to the network now? Who should belong to the network but are not at the moment? Are there other networks with whom EIDD should co-operate?

2) EIDD–network target: What is the mission of the EIDD? What concrete activities should be added to the main target?

3) EIDD–network way of working: What are the most important tools we have? How well are these working at the moment and how could we make them work better?

Workshop method: Let's divide into 3 groups where each group goes around 3 themetables. Six tables and same theme in two tables. Ideas to flipboard. Group is in one table 20 minutes, and then to the same table. One from the group stays to tell other group the conversation from the previous group.

End of workshop the each themes are discussed (30 min)
